CAREER SUMMARY

Solution-oriented web developer with over 3 years of experience building and maintaining responsive web applications. Proficient in front-end development with React, Next.js, and modern CSS frameworks, with foundational backend skills using Node.js and MongoDB. Skilled in translating Figma designs into functional websites, collaborating with teams, and delivering client-focused solutions.

SKILL

Front-End: React.js, Next.js, JavaScript, TypeScript, Redux, SCSS, Tailwind CSS, Ant Design, Bootstrap, React Native,
Back-End: Node.js, MongoDB, Express JS
Tools: Figma, Git, Linux
Other: Technical Documentation, Agile Methodologies, Responsive Design

WORK EXPERIENCE

Front End Developer
PT Quorum Nusa Prestasi | Oct 2024 - Present

- Develop and maintain responsive web applications using modern front-end frameworks and libraries.
- Collaborate with design and development teams to implement user interfaces based on client requirements.
- Ensure high-quality, pixel-perfect UI/UX by translating designs into functional code.
- Led the front-end development of an ERP application for a logistics company named Dejavu, translating UI designs from the Figma team into responsive, functional components.
- Designed and implemented the workflow structure and front-end logic of the ERP system to support operational processes.
- Built an internal web-based backoffice system for the company to improve internal data management and efficiency.

Front End Developer
PT. Aktif Bangun Citra | Jun 2023 - May 2024

- Developed and maintained web applications using Next.js, React.js, Ant Design, and Tailwind CSS.
- Built websites from scratch based on Figma designs, ensuring pixel-perfect implementation.
- Collaborated with teams to resolve bugs and deliver projects on time.
- Implemented the entire front-end of NextStep Idhaho, an educational information platform to help users find scholarship opportunities, based on Figma designs.
- Developed a clinic appointment application that streamlines doctor-patient scheduling workflows, transforming UI/UX designs from Figma into functional user interfaces.

Front End Developer
Livecom | Oct 2022 - Apr 2023

- Created web applications using React.js, Next.js, Ant Design, and Bootstrap.
- Enhanced employee attendance app with React Native, improving functionality.
- Participated in Agile workflows, including daily stand-ups and sprint planning.
- Developed an online registration form system for issuing official documents such as driver's licenses (SIM) and birth certificates, implemented for a municipality in the Netherlands.

Front End Developer
D-Shore | Apr 2021 - Sep 2022

- Built and maintained software documentation sites using React.js, Ant Design, and Fluent UI.
- Developed responsive applications with React Native and tested with Cypress.
- Collaborated with developers to implement new features based on client requirements.
- Created custom UI templates for Microsoft Teams integrations using React.
- Developed an internal admin dashboard using Next.js for better data control and user management.
- Built a mobile app using React Native to track working hours and generate daily work reports for employees.

Portfolio

MDRL Store

online store that sells clothes such as pants
and accessories, made from nextJs and for
css framework using TailwindCss

- source code
- link web app

Disney plus clone

web to watch your favorite shows from disney.
si made this website using react js and react redux for state
management and i used TMDB API to fetch movie data

- source code
- link web app

Tmdb Clone

Developed an interactive TMDB clone web application
leveraging **Next.js** for server-side rendering and optimal
performance. Implemented a responsive and aesthetically
pleasing user interface with **Tailwind CSS**, and efficiently
managed application state using **Redux** for a seamless user
experience. This project demonstrates strong capabilities in
building complex and well-structured front-end applications.

My-Blog

Engineered an intuitive article web blog platform providing
tailored experiences for admin and user roles. Admins gain
comprehensive capabilities for authoring and publishing
articles, while users enjoy seamless Browse and reading. The
application is powered by **Next.js** for efficiency, with a sleek,
responsive interface designed using **Shadcn UI** and **Tailwind
CSS**, highlighting proficiency in developing secure and dynamic
web applications.
